Registration and Immigration

Residence registration

Persons moving to Austria and establishing a residence in Austria must register at the registration office (municipal office) within three days of arrival. Upon leaving Austria, the person will have to de-register the residential address. The de-registration process needs to be completed within three days before or three days after moving.

Registration certificate

EU/EEA citizens and Swiss nationals need a registration certificate (Anmeldebescheinigung) if they stay in Austria for more than three months. An application for the certificate must be made within a four-month period starting from the applicant's arrival in Austria.

Work and residence permit

Third country nationals (Non-EU/EEA/Swiss nationals) who want to pursue professional activities in Austria require a permit related to the labour market law and a permit related to the residency. Prior to the individual's arrival the employer/the employee has to apply for the required permits at the local immigration authority or the Austrian Consulate abroad.

Depending on the type of contract (local Austrian employment contract [A] or assignment contract [B]), the envisaged work activities, the educational background, qualification and work experience of the employee and the duration of the stay in Austria, different immigration routes apply.

A) In case of a local Austrian employment contract a combined work and residence permit, namely the so-called Red-White-Red Card or the Blue Card EU may be applied for.

B) If employees are transferred from an undertaking established outside the territory of an EU Member State to an entity belonging to the undertaking ('Intra-Corporate Transfer' ['ICT']) which is established in Austria the combined work and residence permit for 'ICT' can be applicable. Only upon issuance of the (combined) work and residence permit a third-country national is legally permitted to pursue professional activities in Austria.

To 'new EU citizens' (from Croatia) special regulations apply. These citizens do not require a residence permit, but still need to obtain a work permit.
